Close-up of ants walking in a single line on the ground, carrying food together. The camera slowly zooms out, showing the ants moving in perfect order, resembling a road line. Warm natural daylight, soft depth of field. Narration (child's voice, soft and curious)

First-person perspective from the driver's seat of a 2002 Korean sedan, hands on the steering wheel while cruising down a modernized expressway in South Korea. The interior features smooth, rounded dashboard edges, built-in CD player, digital clock display, air conditioning controls, and dark gray and silver trim. In the passenger seat sits a Korean man in early-2000s style: spiked hair styled with gel, wearing a bright red 2002 FIFA World Cup "Be the Reds" T-shirt, light blue jeans, and a sporty wristwatch. He is holding a small Korean flag in one hand, smiling and talking to the driver. Through the windshield, the highway is decorated with 2002 World Cup banners, cars with Korean flags fluttering from windows, and distant urban buildings. The lighting is bright and crisp, with vivid colors to capture the excitement...

First-person perspective from the driver's seat of a mid-1980s Korean sedan, hands on the padded steering wheel while driving on a busy expressway in South Korea. The car interior has a boxy dashboard design with dark brown and beige plastic panels, rectangular air vents, a built-in cassette player with physical buttons, analog dials, and chrome trim. In the passenger seat sits a Korean woman in authentic mid-1980s fashion: voluminous permed hair with side parting, light pastel-colored polyester blouse with prominent shoulder pads, a modest knee-length A-line skirt in muted beige, and low-heeled pumps. She wears subtle pearl earrings and light natural makeup, holding a small leather handbag on her lap, looking out the side window with a calm expression. Through the windshield and side windows, the...

Create a 56-second cinematic video for the 56th anniversary of the Gyeongbu Expressway. The video should feel warm, inspiring, and cinematic, blending nature with history and modern life. Use smooth transitions, high-quality 8K visuals, and natural camera movement. [Scene 1 – 0~7s] Close-up of ants walking in a single line on the ground, carrying food together. The camera slowly zooms out, showing the ants moving in perfect order, resembling a road line. Warm natural daylight, soft depth of field. Narration (child's voice, soft and curious): "항상 개미들은 줄을 지어 걷었다. 그 이유를 엄마에게 물었다."

Veo 3 - Fast

Black-and-white archive-style shot of the early 1970s during the construction of the Gyeongbu Expressway. Wide shot: rows of construction workers wearing old-fashioned hard hats, shoveling dirt and laying asphalt under the hot sun. Close-up: rusty excavators digging into the earth, trucks carrying soil, and large concrete beams being placed by cranes. Dust and smoke fill the air, creating a gritty, documentary-like atmosphere. Film grain texture, slight camera shake as if filmed with a 1970s handheld camera.

She wears subtle pearl earrings and light natural makeup, holding a small leather handbag on her lap, looking out the side window with a calm expression. Through the windshield and side windows, the 1980s Korean highway scenery is visible, with roadside billboards in Hangul, boxy buses, and vintage sedans of the era. The colors are warm and slightly desaturated, with a soft film grain overlay to evoke the retro atmosphere.
